South Central Shorthorn Breeders' Association

Presents the

OHIO ALL-BULL SALE

to be held at the

Fairgrounds, LONDON, OHIO

SATURDAY, APRIL 4, 1953 at 1:00 P. M.

25 — SCOTCH SHORTHORN BULLS — 25

Herd-Headers for the Breeder

Profit-Makers for the Commercial Producer

These bulls have been selected with the view that beef is the ultimate end of our effort. They have the type which combines quality enough to top the market, with pounds enough to make it pay. They represent the bloodlines that are producing cattle that make good in shows, sale rings, and in registered and commercial herds throughout the country. Here is the place to solve your herd-bull problems on a sound basis and at your own price.

The terms of the sale are cash, and the cattle are sold under the standard guarantee of the American Shorthorn Breeders' Association. The management will not be responsible for accidents but every effort will be made to insure the safety, comfort and convenience of guests. Buying orders may be sent in perfect confidence to any of the officials of the sale.

Shorthorns have proved their right to be termed "the Universal Breed" by having pioneered the beef cattle cause everywhere beef cattle are raised.

They were the world's first improved bovine breed.

The Shorthorn matron is called "The Farmer's Cow" because of her capability to produce offspring which, due to her abundant milk yield, develop quickly to that weight-for-age which means most profit to owners.

Shorthorn sires have become famous the world over because of their power to transmit the breed's outstanding characteristics to their get, thus working marked improvement in offspring of whatever cows with which they are mated.

That's why breeders over the country are switching to Shorthorn bulls. The cross-bred calves inherit that weight-for-age, better hind quarters, more milk in replacement heifers, quiet, easy-feeding dispositions—all of which mean more profit for owners.
